

THE VICTORIA FOODS COMPANY

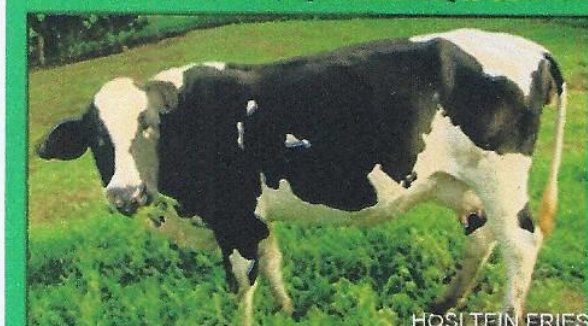

VFC Dairy Farm started at 2004. They started with Sahiwal and Holstein Friesian crosses as initial stocks, which came from the Batch 4 import of dairy cattle by the National Dairy Authority (NDA). Artificial insemination (AI) is practised in the farm for the upgrading of dairy cattle breeds. The semen, Bomaz and Kerndt Grumpy Thunder, are used for breeding. They are imported from the USA through NDA

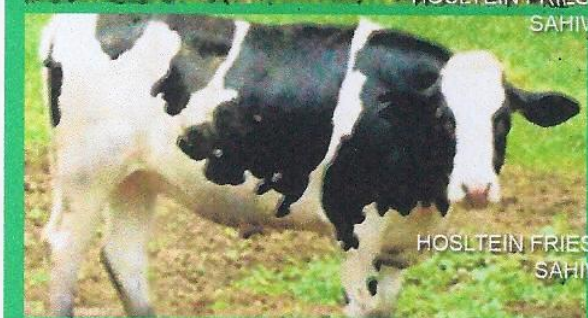

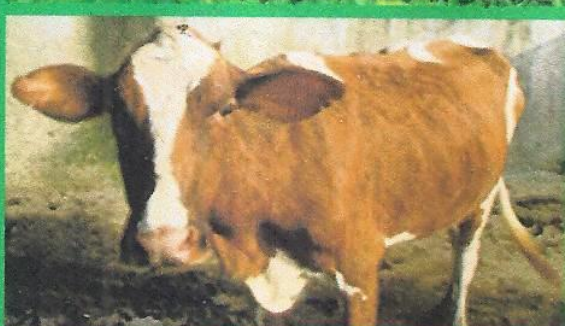

DAIRY BREEDS

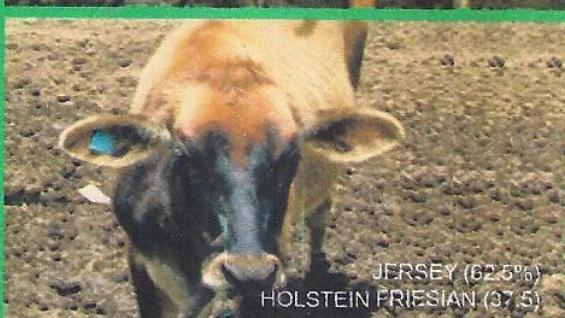

AUSTRALIAN FRIESIAN SAHIWAL

HOSLTEIN FRIESIAN (62.5%)
SAHIWAL (37.5%)

HOSLTEIN FRIESIAN (82.5%)
