

Techno-Demo on Milk and Milk Products Processing for OFWs

Cecile Manuel, NDA Food Technologist, receives a plaque of appreciation from Dir. Leandro H. Gazmin, DA Director of Agribusiness Marketing Assistance Service (AMAS) for sharing her expertise as Resource Speaker on "Techno Demo on Milk and Milk Products Processing" during the Agribusiness Livelihood Seminar for OFWs (Overseas Filipino Workers) last November 16, 2011 at the DA Agribusiness Center in Quezon City.

Some 30 OFWs from Korea, Saudi Arabia and Hongkong attended the seminar. This initiative is one of the many projects of assistance offered by AMAS to help returning OFWs and their families to cope with the economic downturn and the sudden repatriation of those who were hit by the crisis.

The participants were given hands-on demo on the processing of "Kesong Puti", Chocolate Milk and Milko-Jell. Knowledge learned from the seminar will give them ideas on how to earn additional income by going into dairy processing as starters.
