

Sta. Maria Dairy gets a new plant

Project Title :	Construction and Rehabilitation of Sta. Maria Milk Processing Plant under MILK FEED PLUS PROJECT
Implementing Agency :	DA-NATIONAL DAIRY AUTHORITY
Funded by :	US PL 480 TITLE I PROGRAM Thru the United States Department of Agriculture
Managed by :	National Agricultural and Fishery Council (NAFC)
Implemented by :	National Dairy Authority
Project Location :	Pulong Buhangin, Sta. Maria, Bulacan
Project Amount :	Php 6,000,000.00
Dated Started :	June 2011
Date of Completion :	June 2012

In time for the Christmas season, the Sta. Maria Dairy Cooperative gears up to have their milk processing done in the new facility. Last week the new OIC for Operations, Dr. Jimmy Lopez together with Mr. Felix Tañedo, Engr. Ian Pamaos and Edwin Calubag, the Coop Development Officer made a thorough inspection of the processing plant.

The new plant's was part of a US PL-480 Program of the United States Department Of Agriculture, as part of the rehabilitation program under the MILKFEED PLUS Project. This was managed by the National Agriculture and Fishery Council (NAFC) and implemented by the National Dairy Authority.
