

Gender Sensitivity Program

Gender sensitizing seminars were conducted last December 13 and 20, 2012 at the NDA Conference Room. The resource persons tapped were from the Bureau of Fisheries and Aquatic Resources. The move was meant to sensitize NDA employees as to their roles and responsibilities in relation to dealing with clientele, co-workers and family members and how each would respond to challenges in an efficient and effective manner without jeopardizing work and work values.

The one-day seminar gave an overview of the different roles one plays as man and/or woman. The activity was a learning experience that allows each participant to think out of the box and be pro-active members of society. Games and workshops formed part of the seminar.
