

Renato G. Villezta , AI TECH from Talavera, Nueva Ecija, calls on NDA as part of UNAIP Team

RENATO G. VILLEZA, AI technician based in DVF Farms called on Dr. Jimmy Lopez , in a show of partnership and collaboration to be the focal point in Talavera. Villezta is one of the four (4) AI technicians in Talavera.

He will be an addition to the breeding specialist who will be helping in the upgrading activities in the north Luzon area. At the same time , NDA activities in promoting dairy cows for milk production purposes will be an added feature in increasing farm incomes in the country side

Shown here as he logs in at the Operations office and when he did courtesy call to Dr. Jimmy Lopez, Ace Diaz, MIS man for North Luzon and Dr. Andrew Agato, the Breeding Coordinator for NDA.

Dr. Lopez emphasized that for starters, NDA together with Villezta can identify interested farmer groups in Talavera to serve as model farm for this venture. This will make for easy monitoring and breeding purposes.
