

The over-all setting of one of our new DMF partners in Bayambang , Pangasinan. Our partner here is Mr. Butch Umengan, the Executive Director of the National Corn Competitiveness Board. Twenty-five (25) head of Holstein-Sahiwal crosses quarantined at Del Monte Farm in Manolo Fortich in Bukidnon, were unloaded in his farm last July 28, 2012. These were part of the recent importation of 800 pregnant heifers from New Zealand to beef up the government's dairy herd build up efforts. The convoy was accompanied by Project Development Officer Florencio Marcial, Jr and Dr. Ronald Banded to ensure the safety and proper handling of the herd during transit and unloading at the farm site.
