

Field Day : Science and Technology Based farm project on Goat Milk production using Anglo Nubian x Saanen F1 Does.

On April 30, 2010, a field day will be conducted at Alaminos Dairy Goat Farm, in Alaminos Laguna. There will be a program introducing the S&T Based Farm Project on Goat Milk production using Saanen-Based-Dairy Goats . This will be done by Dr. Edwin Villar, the director of the Livestock Research Division (LRD) of PCARRD. The other speakers include: Mr. Rene Almeda, farm Consultant, Dr. Gigi Salces, a geneticist and the focal person of the project from DA Region 6, will explain the science of the study. This will be followed by a Milk demonstration of Top Milkers by Mr. Artemus Almeda, a Magsasakang Siyentista and is the owner and manager of Alaminos Dairy Goat Farm. Dr. Patricio S. Faylon , executive director of PCARRD and Adm. Orkhan H. Usman of the National Dairy Authority will be the guests of honor.
