

Batch 11 Animals arrive from New Zealand

Some 496 head of Holstein-Friesian Sahiwal dams, together with 4 bulls, arrived from New Zealand last July 24 at 7:00 pm. at Cagayan de Oro Port. Unloading started at 9:00 p.m. and finished by 4 a.m. the following day.

Animals are safe and sound as they are now in Bukidnon. They will be quarantined at the Del Monte Farms for a period of 1 month. During quarantine they will be given vitamin shots and anti-tick fever vaccine.

This is routine activity during every importation to make sure that the animals become acclimatized to local conditions prior to dispersal to would-be beneficiaries.
