

A peek at Allan Bernale's Farm in Bgy. Sto. Niño, Talakag, Bukidnon

These batch 10 animals surely love the sprawling pasture in Talakag Bukidnon, where grasses are fresh and abundant. Pastor Roger from Sta. Cruz Baptist Church in Lipa Batangas took time out to visit the area in Mindanao.

As of today, this is how the animals of Board Member Allan Bernale's farm look like -in shiny coats and good body conformation. These are indicative of proper dairy husbandry management.

The pasture is planted to signal grasses which more than supply the forage requirement of his herd. Well-fed animals are contented cows which are docile and easy to manage.
