

**Basic AI and PD Courses set for September 27-October-26, 2010 at UPLB**

NDA is set to hold another training on Artificial Insemination and Pregnancy Diagnosis for large ruminants this coming September 27, 2010 to October 26, 2010 at the University of the Philippines at Los Baños, Laguna.

Fifteen (15) participants will be coming from NDA-assisted dairy farmers cooperatives to be trained as Community Development Technicians (CDTs).

The Animal Dairy Sciences Cluster training pool will be the resource persons for the said training.

Skills on Ai and pregnancy diagnosis will help these farmers better in making their animal holdings more productive and healthy.
