

DA Family Public/Regional Information Officers Hold Consultative Meeting and Planning Workshop

The information officers of all DA-attached bureaus and agencies ham it up for the camera after the 3-day session held at the BSWM last December 6-8, 2010. The DA Family Public Regional Information Officers (PIO's and RIO's) Consultative Meeting and Planning Workshop held at the BSWM Conference Hall was a prelude to making sure that all the information farmed out to our clientele are in synch with the mother agency's thrust of bridging the gap through public information. This is also a way of letting the clientele know the programs that are up for grabs in the region. [Ching M. Lumanta, PDO IV-Info Group CO]
