

## WHAT'S NEW IN NDA?

New Year, New Entrant: Ma. Jovi Laygan Hodrial

As we begin the year 2012, we have a new addition to the NDA Operations Department family in the person of Ms. Jovi Laygan Hodrial, the new MIS Staff. Jovi is an Agriculture major in Animal Science graduate from UP Los Baños. She comes in at a crucial time when we need to strengthen our data base processing especially with the establishment of several dairy multiplier farms.

At 22, Ms. Hodrial brings in fresh hope, new ideas and innovations to a very dynamic section of the Operations Department.

As the saying goes..hep hep hooray and welcome aboard!
